Course Number	Course Title	Credits	Clock Hours Per Week	
RED 4519	Recognizing and Diagnosing Growth in Reading	3	3	Lecture & Field
Department: Elementary Education		Prerequisites: None		

Required Textbook(s): Multiple Paths to Literacy, Gipe, Joan. Pearson Merrill- Prentice Hall, 6 th . Ed. 2006.						
Faculty Name: Robert Lemons				Term and Year: Summer 2007		
Office Location: 204A – GEC-C Building				Office Telephone: (850)561-2670		
Office Hours (Others by Appt.)	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Before & after each class	3:30 – 5:30	3:30 – 5:30	3:30 – 5:30			
	8:00 – 8:30	8:00 – 8:30	8:00 – 8:30			

Course Description

3 Credits, Prerequisites: RED 3013 or its equivalents with permission of instructor or advisor. This course covers the identification of the components of the reading process and the evaluation of those components. Diagnostic and corrective reading principles and procedures that enable prospective teachers of reading to provide instructional materials and experiences for students. Field experiences are included.

Upon completion of this course, students will understand the principles of scientifically based reading research as the foundation of comprehensive instruction that synchronizes and scaffolds each of the major components of the reading process.

Philosophy Rationale

This course will address a number of key themes that can be seen as critical links related to helping children develop high quality reading skills. They are: communication, collaboration, cumulativity, convergence and comity (social harmony). This course has as its goal to provide pre-service teachers and researchers a clear explanation of the methods used for reading research that can provide solid, convergent evidence on which to base practice in the classroom. Additionally, this class covers actual findings that have direct applicability in the classroom, brain research that shows changes attributable to reading instruction, and information about how policies get made and the role that research can play in that arena.

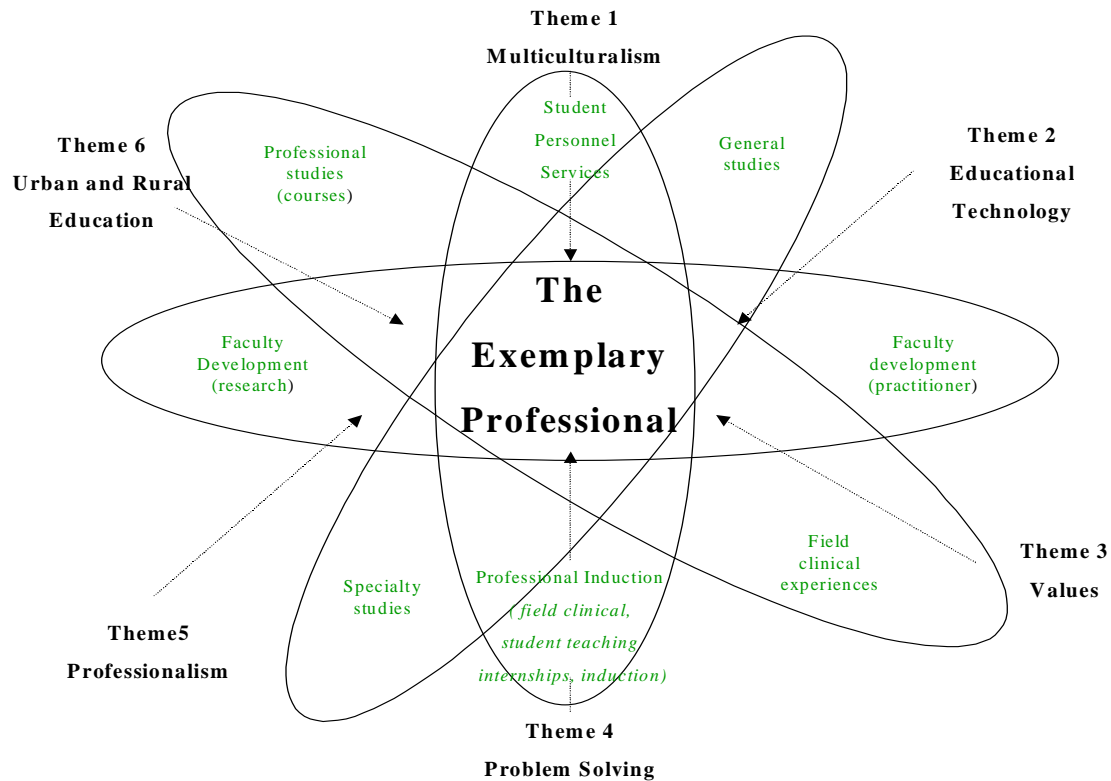

The ability to read is both necessary and crucial for children's academic success. The importance of success in reading for life long success must not be underestimated; how well a child learns to read may determine future opportunities, including not only career possibilities but also his/her ability to accomplish the basic activities of daily life.

One of the most critical components of implementing effective reading instruction is using an approach that is based on scientific evidence, that is, using programs and approaches that are proven to be successful. Using scientific research in teaching children to read and write is essential for ensuring the best academic life opportunities for our children.

Professional Education Unit Conceptual Framework

The Conceptual Framework in the Professional Education Unit at Florida A&M's University College of Education is an integrated approach to providing educational experiences that result in exemplary professional educators. The Framework is comprised of several activities and themes with the mission of developing high quality classroom teachers, administrators and support personnel. The term "exemplary" refers to the kind of graduates the unit strives to produce. The Educational Leadership Program has identified the professional content and experiences of the Educator Accomplished Practices specified by the Florida Standards Commission, the Florida Essential Teaching Competencies identified by the Florida Department of Education, the competencies and domains identified by the Florida Council for Educational Management and the standards identified by the National Council for the Accreditation of Teacher Education. Figure 1 provides a diagram of the Exemplary Professional Conceptual Framework. A list of the specific competencies is provided in the appendix.

FIGURE 1

Overall Goals of the Course

This course has as its goal to provide pre-service teachers and researchers a clear explanation of the methods used for reading remediation and diagnosis that can provide solid, convergent evidence on which to base practice in the classroom. Additionally, this class covers actual findings that have direct applicability in the classroom, brain research that shows changes attributable to reading instruction, and information about how policies get made and the role that research can play in that arena.

Specific Behavioral Objectives

1. Students will be able to show knowledge of the reading process. This includes defining the reading process and identifying its components. Additionally, they will be able to apply knowledge of models and theories to instructional practices.
(FSAC 1.1, 1.2) (IRA 1.1, 1.3, 4.3, 4.8, 5.1, 5.2, 5.3, 5.4, 6.5, 9.2, 17.1)
(ELEM 1.1, 3.4, 4.2) (EAP 2, 8) (ACEI 6.2, 13.1)

2. Students will show knowledge of the factors that contribute to readiness for beginning reading.
(FSAC 2.1, 2.2, 2.3, 2.4, 2.5) (IRA 4.7, 4.8, 5.1, 5.4, 6.8, 9.1, 12.9, 17.1)
(ELEM 2.1, 2.2, 2.3) (EGTC 1) (EAP 7) (ACEI 13.6)
-Analyze student language and determine appropriate instructional strategies, using knowledge of phonology, morphology, syntax, semantics, and discourse.
(ESOL 10)
3. Students will show knowledge of word identification/word recognition including phonics and structural analysis.
(FSAC 3.1, 3.2, 3.3, 3.4, 3.5, 3.6) (IRA 4.8, 6.6, 12.5, 12.6, 17.1) (ELEM 5.1, 6.1)
(EGTC 4.3, 5.1, 5.2, 6.1) (EGTC 11, 12, 13) (EAP 8) (ESOL 10)
4. Students will show knowledge of meaning vocabulary including the use of syntax and semantics.
(FSAC 4.1, 4.2, 4.3, 4.4, 4.5, 4.6, 4.7) (IRA 4.8, 6.1, 6.6, 6.7, 9.1, 9.2, 10.2, 11.1, 11.2, 12.1, 12.2, 12.9, 17.1) (ELEM 4.3, 5.1, 5.2, 6.1) (EGTC 11, 12, 13) (EAP 8)
(ACEI 13.4, 13.5) (ESOL 10)
5. Students will show knowledge of comprehension including use of syntax and semantics.
(FSAC 5.1, 5.2, 5.3, 5.4) (IRA 4.8, 6.1, 6.6, 6.7, 9.1, 9.2, 10.2, 11.1, 11.2, 12.1, 12.2, 12.6, 12.9, 17.1) (ELEM 4.3, 5.1, 5.2) (EGTC 11, 12, 13)
6. Students will show knowledge of oral and silent reading.
(FSAC 7.1, 7.2, 7.3) (IRA 4.8, 17.1) (ELEM 4.3, 5.1, 5.2, 6.1) (EAP 8)
7. Students will show knowledge of various approaches to reading.
(FSAC 8.1, 8.2, 8.3) (IRA 4.8, 17.1, 17.2, 17.3) (ELEM 4.3, 5.1, 5.2, 6.1) (EAP 8)
8. Determine and use appropriate instructional methods and strategies for individuals and groups, using knowledge of first and second language acquisition processes.
(ESOL 5)
9. Evaluate, design, and employ instructional methods and techniques appropriate to learners' socialization and communication needs, based on knowledge of language as a social phenomenon. (ESOL 13)
10. Students will show knowledge of attitudes and interests in the broad aspects of reading education.
(FSAC 12.1, 12.2, 12.3) (IRA 3.1, 4.3, 4.5, 4.8, 5.3, 7.2, 9.1, 9.3, 11.3, 17.1) (ELEM 2.2, 5.8) (EGTC 1, 2) (EAP 5, 7) (ACEI 13.11)

Topical Outline/Course Calendar

WEEK ONE

Introductions and orientation to course

WEEK TWO

Chapter I Fundamental Aspects of Literacy

WEEK THREE

Chapter II The Analytic Process: Preparation for Differentiating Instruction

WEEK FOUR

Linguistic Diversity Perspectives for Literacy

WEEK FIVE

Outside Influences on Literacy Development

WEEK SIX

Literacy Assessment: Indirect Measures

WEEK SEVEN

Literacy Assessment: Direct Measures

Word Recognition

WEEK EIGHT

Reading Comprehension

WEEK NINE

Multicultural Factors and the Effective Instruction of Students of Diverse Backgrounds

Research on Reading/Learning Disability Interventions

The New Illiteracies: Research on Reading Instruction with the Internet

WEEK TEN

Meaning Vocabulary

WEEK ELEVEN

Arts at Every Opportunity: Weaving It all Together

WEEK TWELVE

Final Examination

Teaching Methods

This class will be delivered in a cooperative learning format. Everyone in the classroom is responsible for everyone else's learning. The Professor will serve as the Instructional Leader and Facilitator. Much of your work in class will be done in small groups. You will be randomly assigned to a group. After three chapters have been covered, groups will be reformed. You will be given study guides before each chapter. You will be required to complete each guide outside the class. Upon arrival to class, you should immediately get into your groups and begin working. Work in the group should consist of comparing responses to the study guide, helping each other with problems that they may have had if any, making sure that each individual in the group understands each item on the study guide, deciding who will represent the group for each item in the whole group discussion.

At the beginning of each class period, the professor will lead a short discussion on topics related to literacy, children, their families, schools, teachers and learning. You will be expected to take an active role in the discussions by contributing when appropriate.

There are five broad topics that you will be required to prepare a critique from one of major literacy journals. You may consult journals from the list provided earlier. The critiques should be done in the American Psychological Association (APA) format. After you prepare a detailed summary of the article's contents, provide a thoughtful personal reaction. Give your overall impression of the article: its strength and weaknesses, how this information conforms with what you knew before, how you would use its contents, and finally, whether you would recommend this article for your colleagues.

Nearing the end of the semester, we will begin our simulated teaching exercises. You are to plan a thirty minute lesson on a topic agreed upon by both of us. Develop a lesson plan in the format shown on the attached sheet. You may volunteer for a scheduled time to teach your lesson. If there are no volunteers, then we will proceed down the role in alphabetical order. Before beginning a lesson, read your objectives to the class, and provide any orientation to your lesson as you feel appropriate. At the end of your lesson, you will be asked to read each of your behavioral objectives to the class again, one by one. The class will be asked if the objectives have been achieved. They will provide explanations of why they think the objectives were achieved or not. Next, the students will be asked to tell you what the strengths of the lessons were. Next, they will tell you what the weaknesses were and how the lesson could have been improved.

Next, the class will be asked if they would like for you to teach their child this lesson. Finally, the Professor will provide an oral evaluation of the lesson. Your grade for this activity will consist of a combination of the quality of your lesson plan and the quality of your teaching presentation. What your classmates say about the quality of your lesson will have no bearing on the grade that you receive for the lesson. The professor's opinion is the one counted toward your grade for this activity.

Methods of Evaluations

Attendance and Participation	30%
Presentation of Four Case Studies	20%
Tutoring and Development of a Case Study on a Struggling Reader	30%
Final Examination	<u>20%</u>
Total	100%

Assignments and Exams

All assignments and exams are due when scheduled. Exceptions will be made at the discretion of the professor.

Standards

COMPETENCIES:

Florida Subject Area Competencies: Reading-- (FSAC)

Florida Subject Area Competencies: Elementary Education -- (ELEM)

Florida Subject Area Competencies: ESOL-- (ESOL)

Association for Childhood Education International-Elementary Education-- (ACEI)

International Reading Association Guidelines-- (IRA)

NCATE Recommendations for Technology in Teacher Education-- (NCATE-tech)

Essential Generic Teaching Competencies: Professional Skills-- (EGTC)

Florida Educator Accomplished Practices-- (EAP)

Use of Technology

Technology to be used in this course will consist of: compact disk players, overhead projectors, televisions, LCD players, laptops, etc. Blackboard will be used to communicate with students regarding instructional issues and materials required for the delivery of high quality classroom instruction. Students will gain access to Blackboard through the professor's website.

Class Policies and Rules (Disabilities Statements)

Regular and punctual attendance is required for this course. Your level of participation in the course discussions and activities will count heavily in the computation of your grade for the course. It would follow then, that you cannot participate if you are not present and on time. Please turn off all cell phones, and bring no food, drinks, or children to class.
